ACKNOWLEDGMENTS

The Ministry of Environment, Lands and Parks wishes to acknowledge three partners whose contributions were invaluable in the completion of the *Aboriginal Water Rights Report Series:*

> The Ministry of Aboriginal Affairs, was a critical source of funding, support and direction for this project.
>
> The U-Vic Geography Co-op Program, was instrumental in providing the staffing resources needed to undertake this challenging task. Through the services of June Whitmore and her office, the project benefited from the research, writing, editing and co-ordination of these outstanding students:

Jas Gill
Julie Steinhauer
Kelly Babcock
Daniella Mogus
Miranda Griffith
Christina Rocha
Rachel Abrams
Elizabeth Lee
Sara Cheevers

> The services of Clover Point Cartographics Limited of Victoria, was responsible for the preparation of most of the map drawings, which form a valuable part of these documents.

In addition to these three key partners, I must acknowledge the valuable contributions of other Water Management staff, past and present, including Jack Farrell, Jim Mattison, Richard Penner, Diana Jolly, Greg Blaney, Gary Lucas and Kim Johnston.

The sheer numbers of First Nations groups' with histories of water rights made the completion of the Report Series seem, at times, prolonged. The determination, patience and vision of the partners was essential in the completion of the Series and is gratefully acknowledged.

FIRST NATIONS WATER RIGHTS REPORT

BAND: Neskonlith

ADDRESS: PO Box 608, Chase BC, V0E 1M0

CHIEF: Joyce Manuel

PHONE: 679-3295 **FAX:** 679-5306

AFFILIATION: Shuswap Nation Tribal Council

LOCATION:

The Neskonlith Band occupies three separate reserves in the Interior Plateau Region.

The three reserves are:

¥ Neskainlith 1 - a 1280.4-hectare reserve located between Niskonlith Lake and the right bank of South Thompson River.
¥ Neskainlith 2 - a 989.3-hectare reserve located on the left bank of South Thompson River, across from Neskainlith 1, and south of Chase.
¥ Switsemalph 3 – a 517.0-hectare reserve, west of Salmon Arm, located on the south bank of the Salmon Arm of Shuswap Lake.

The most recent population figures from the Ministry of Finance show the Neskonlith Band to have a population of 228 persons living on reserves as registered members. It's total population, including registered and non-registered members living on-reserve, on crown land and off-reserve is 506.

The Neskonlith reserves lie within the interior plateau at elevations ranging from 1100 feet to 2400 feet above mean sea level, and experience climate ranging from an average daily temperature of -10 degrees centigrade in January and up to 20 degrees centigrade in July. The average annual rainfall for this area is 30 - 50 centimetres.

Water courses of significance include:

¥ Chase Creek, which is located north of Neskainlith Reserve 2, flows west and drains into South Thompson River.

¥ Loakin Creek, which flows south along the west border of Neskainlith Reserve 1, and drains into Niskonlith Creek.

¥ Niskonlith Lake, which is located along the western border of Neskainlith Reserve 1.

¥ Niskonlith Creek, which flows southeast from the southern end of Niskonlith Lake, along the southern boundary of Neskainlith Reserve 1, and drains into the South Thompson River

¥ Palmer Creek, which is located south of Switsemalph Reserve 3, flows southeast and drains into Salmon River.

¥ Rancherie Gulch, which is located north of Neskainlith Reserve 1, in the eastern corner of Sahhaltkum Reserve 4.

¥ Salmon River, which flows north, along part of the southeast border of Switsemalph Reserve 3, and drains into Shuswap Lake.

¥ Shuswap Lake, which is located along the Trans Canada Highway between Chase and Sicamous.

¥ South Thompson River, which flows southwest from Little Shuswap Lake, between Neskainlith Reserve 1 and Neskainlith Reserve 2, and eventually drains into the Thompson River.

¥ Tappen Creek, which flows southeast, through the southern portion of Little Shuswap Lake Band Reserve North Bay 5, and drains into Shuswap Lake.

¥ White Creek, which flows south, through the middle of Little Shuswap Lake Band Reserve North Bay 5, and drains into Shuswap Lake.

WATER ALLOCATIONS:

The water rights of the Neskonlith Band have been recorded or affected by five actions of government over the years:

1. Allotments by the Indian Reserve Commissioners.

   Following confederation, the Province and the Dominion established an Indian Reserve Commission to reserve lands for the Indians and for transfer of those lands to the Dominion. In setting apart lands for reserves, the Reserve Commissioners made it their practice to allot water with the lands. It is understood that this practice was unique among Indian Reserves in Canada, and the authority of these Commissioners to allot water rights has always been disputed by the Province.

2. Lieutenant Governor in Council approval by Order in Council of the granting of water rights.

3. Determinations of the Board of Investigation under the *Water Act, 1914* of claims of the

Department of Indian Affairs, and subsequent issue of water licences.

4. Granting of water licences from Federal Government or other parties' applications for licences for the use of water on reserves.

5. Actions to amend rights under the licence pursuant to provisions in the *Water Act.*

HISTORY, CURRENT STATUS, AND NOTES:

The history of water rights, the current status of rights, and notes for the Neskonlith Band with respect to the water sources for Neskainlith 1, Neskainlith 2 and Switsemalph 3 are as follows:

NESKAINLITH 1

Loakin Creek, Niskonlith Creek & Lake and Rancherie Gulch

History:

Aug 13, 1877 Minute of Decision of the Indian Reserve Commission, constituting Neskainlith Reserve 1:

> *"The prior right of the Neskonlith Indians as the oldest owners or occupiers of the soil to all the water which they require or may require for irrigation and other purposes from Niskonlith Lake and Creek, as so far as the Commissioners have authority in the matter declared and confirmed to them, subject only to the water requirements of the Adams Lake Indians on their adjacent reserve and in regards the aforementioned addition to the old reserve, the Neskonlith Indians are to have what they require of the water from the creek* which flows into the South Thompson River, near the house of Mr. Chase, subject to the water requirements of white settlers who have recorded water from said creek."*

*Note: The identity of the creek near the house of Mr. Chase is unknown.

Nov 21, 1884 The Indian Superintendent sent a letter to the Provincial Government requesting that,

> *"steps be taken by your Government, as may be considered necessary to protect the Indians from the [issue] complained of"*

This issue was outlined in an accompanying letter from an Indian Agent. A third party, without authorized water rights, was diverting water from Niskonlith Creek and this was creating a water shortage for the Neskonlith Indian Band.

> *"The Indians say that they were promised by the Reserve Commissioners that a sufficient supply of water would be protected in [Niskonlith Creek], by the Government for their use.*
> *In order to fulfil this promise, it appears absolutely, necessary, that the Provincial Authorities, be notified, as soon a possible, that any further privileges granted in respect to taking water from Niskonlith Creek will interfere with the rights of the Indians."*

May 30, 1908 By Order, the Administrator in Council authorized that a grant of water rights be made in favour of the Halant Band* of Indians,

> *"200 inches of water out of Neskainlith Lake, Kamloops Division of Yale District, for use on the Halant Indian Reserve."*

*Note: Neskainlith 1, held by the Neskonlith Band was also named Halant Reserve and the Neskonlith Band was also known as the Halant Band.

Aug 6, 1920 At a final hearing before the Board of Investigation, acting pursuant to the *Water Act 1914*, the Board determined that with respect to the said claims that the Indian Reserve Commissioners made in allotting to the Neskainlith-Halaut tribe or band of Indians the lands comprised in Neskainlith Indian Reserve No. 1 attempted without authority to set apart water from a certain stream and lake for use on the said Reserve, and that on the 26th day of September 1888 there was filed in the office of the Dominion Lands Agent a bona fide application for records of water from Nisconlith Lake and Creek for use on the said Reserve. The Order of the Board, numbered 4683, set out that a conditional licence should be issued which would:

(i) provide for the diversion of water from Nisconlith Lake and Nisconlith Creek
(ii) take precedence from the 26th day of September, 1888,
(iii) authorize the diversion of a maximum of 1536 acre feet of water a year for the irrigation of 614.3 acres of Neskainlith Indian Reserve No. 1 provided that 12,000 gallons of water a day throughout the year could also be used for domestic purpose,
(iv) authorize the storage of water not exceeding 1,000 acre feet in Nisconlith Lake between the first day of October in each year and the first day of June in the succeeding year.

Nov 30, 1920 The Comptroller of Water Rights issued Conditional Water Licence 5230, which embodied the terms, and conditions set out in Board Order 4683.

Nov 10, 1922 The Comptroller of Water Rights issued Conditional Water Licence 6259 to J.F. Smith as agent for the Indians on the Neskainlith Indian Reserve No. 1. This licence was given a date of precedence of November 10, 1920 and authorized the diversion of 600 acre feet of water from Loakin Creek for the irrigation of 300 acres of Neskainlith Indian Reserve No. 1, provided that 5,000 gallons of water a day may be used throughout the whole year for domestic purpose.

June 11, 1937 The Comptroller of Water Rights issued Conditional Water Licence 13265 to the Director of Indian Affairs. This licence authorized the storage of 4,000 acre feet of water a year in support of the diversion of water authorized under Conditional Water Licences 5230, 5243 and 6363, from Loakin Creek, Niskonlith Creek, Niskonlith Lake, and a lake in the hills at the foot of Little Shuswap Lake; the reservoir site was described as Niskonlith Lake (Niskonlith Lake Dam).

Mar 21, 1938 The Comptroller of Water Rights issued Final Water Licences 10245 and 10246 to the Director of Indian Affairs, both bearing a date of precedence of November 10, 1920.

(i) Final Water Licence 10245, issued in substitution of Conditional Water Licences 5230, 5243, 6259 and 6363 authorized the diversion of 4,122 acre feet of water from Rancherie Gulch, Loakin Creek and Niskonlith River for the irrigation of 1649.1 acres of the Sahhaltkum Indian Reserves Nos. 4 and 4A, and Neskainlith Indian Reserve No. 1, provided that of this quantity 10,000 gallons of water a day throughout the year could also be used for domestic purpose.

The accumulated quantity of the four substituted licences was 4394 acre feet per annum. A lesser quantity of water was authorized with the issuance of Final Water Licence 10245 as being sufficient for the area to be irrigated.

Conditional Water Licences 5230 and 5243 had earlier dates of precedence (September 26, 1888), Conditional Water Licences 6259 and 6363 had priority dates of November 10, 1920. There is nothing on file to indicate why the later date of precedence was chosen when these four licences were amalgamated into Final Water Licence 10245.

(ii) Final Water Licence 10246, issued in substitution of Conditional Water Licences 5230, 5243 and 13265 authorized the storage of 6,000 acre feet of water a year in support of the diversion of water authorized under Final Water Licence 10245, from Rancherie Gulch, Loakin Creek and Niskonlith River; the reservoir site was described as Niskonlith Lake (Niskonlith Lake Dam).

Final Water Licence 10246 was given the later priority date associated with Conditional Water Licence 13265, instead of the earlier date of precedence on Conditional Water Licences 5230 and 5243. There is no indication on file as to why the later date of precedence was chosen.

July 20, 1990 (i) In accordance with a change of works application filed by the Neskainlith Indian Band, the Regional Water Manager issued Conditional Water Licence 67333 to Indian Affairs, Neskainlith Indian Band and Sahhaltkum Indian Band. This licence issued in substitution of Final Water Licence 10245 was given a date of precedence of November 10, 1920, and authorized the diversion of 4,122 acre feet of water from Niskonlith Creek, Loakin Creek and Rancherie Gulch for the irrigation of 1,649.1 acres of Sahhaltkum Indian Reserve No. 4 and Neskainlith Indian Reserve No. 1, of which quantity 10,000 gallons a day may be used for domestic purpose.

(ii) The Regional Water Manager issued an order amending Final Water Licence 10246 so that it would show the purpose to be storage in support of Conditional Water Licence 67333.

Current Status:

Loakin Creek

Conditional Water Licence 67333, in the name of the Neskonlith Band and the Adams Lake Band is the only active licence on Loakin Creek.

Niskonlith Creek and Niskonlith Lake

There are no active licences on Niskonlith Lake.

There are a total of 10 active licences on Niskonlith Creek. Of these licences:

¥ five authorize the diversion of water for domestic purpose, with a total quantity authorized of 4,000 gallons a day.
¥ six authorize the diversion of water for irrigation purpose, with a total quantity authorized of 4890.5 acre feet per annum.
¥ one authorizes the storage of 6,000 acre feet of water.
¥ one also authorize the diversion of 10,000 gallons a day for incidental domestic purpose.

* Note: that some licences have more than one purpose.

Conditional Water Licence 67333 (fifth in priority) and Final Water Licence 10246 (sixth in priority) are the only two licences on Niskonlith Creek for the benefit of the Neskonlith Band and the Adams Lake Band.

The four licences that have earlier priority dates than those licences in the name of the Neskonlith Band are in the name of A & W Ranching Limited.

All the licences on Niskonlith Creek, except two, share the same point of diversion. This point of diversion includes the Niskonlith Dam. The Neskonlith and Adams Lake Bands were the only licensees using this point of diversion until those licences in the name of A & W Ranching Limited were amended by a change of works order in April 20, 1966, resulting in all the licences sharing the same point of diversion. There is nothing on file to indicate that Indian Affairs or the relevant Bands agreed to the change of works. The actual location and ownership of the dam is under contention. There is no written agreement on file between Indian Affairs or the relevant Bands and the private licensee as to the control or ownership of the works (Niskonlith Dam).

Rancherie Gulch

Conditional Water Licence 67333, in the name of the Neskonlith Band and the Adams Lake Band, is the only active licence on Rancherie Gulch.

Notes:

1. The allocations to the waters of Niskonlith Lake and Creek and the unnamed creek made by the Indian Reserve Commission have not been formally recognized by the Province. Recognition of this allocation would give the Neskonlith Indian Band earlier priority on Niskonlith Creek.

2. Licensing occurred on Niskonlith Creek after the Indian Superintendent's request of November 21, 1884 to protect the water of Niskonlith Creek for the Neskonlith Band.

3. Conditional Water Licence 5230, which allocated 1536 acre feet of water per annum from Niskonlith Creek and Lake, was comparable to the Order in Council allocation of 200 inches from Niskonlith Lake. However, the issue of final water licences, in substitution of Conditional Water Licence 5230 resulted in the Band losing rights on Niskonlith Lake.

4. The priority dates on Conditional Water Licence 67333 and Final Water Licence 10246 were adjusted. If the date of precedence had not been changed on these licences they would have been fourth and fifth in priority on Niskonlith Creek.

5. Final Water Licence 10246 authorizes a dam on Niskonlith Lake for storage purposes. The dam is partially on Neskainlith Reserve and on private land and the maintenance and ownership of the dam has been an issue.

6. The Niskonlith Dam, which is authorized under Final Water Licence 10246, has caused flooding of private land in the past.

7. Under current licensing practices the incidental domestic purpose authorized under Conditional Water Licence 67333 would be amended to waterworks purpose. The amendment of this licence would allow for the designation of the Loakin Creek and Niskonlith Lake drainage area as a Community Watershed under the Forest Practices Code.

South Thompson River

History:

June 1, 1982 The Comptroller of Water Rights issued Conditional Water Licence 57023 to the Neskainlith Indian Band in accordance with an application filed by Barret and Judith Deneault. This licence was given a date of precedence of January 25, 1980 and authorized the diversion of 93 acre feet of water a year from South Thompson River for the irrigation of 31 acres of Lot 6A Neskainlith Indian Reserve No. 1, Kamloops Division of Yale District, Plan 52155, Canada Lands Survey Records.

The Deneault's originally applied for the right to divert 210 acre feet of water per annum; however, a lesser quantity was authorized as being sufficient for the area to be irrigated.

Current Status:

There are a total of 287 licences and 2 applications on South Thompson River.

Conditional Water Licence 57023 in the name of the Neskonlith Band, c/o Barret & Judith Deneault is the only active licence on South Thompson River for use on Neskainlith Indian Reserve 1. This licence is 179th in priority. It is assumed that the Deneaults are not band members as they are billed for the right to use the water from South Thompson River. The Deneault's have been paying the annual rentals.

Water Survey of Canada reported streamflow records on Station 08LE031, South Thompson River at Chase, for 1911 to 1990. These streamflow records reported a low mean monthly flow of 88.1 cubic metres per second in February, increasing to a high in June of 855 cubic metres per second.

Notes:

1. A lesser quantity of water was licensed than what was applied for by the Neskonlith Band.

NESKAINLITH 2

Chase Creek

History:

July 18, 1921 At a final hearing before the Board of Investigation, acting pursuant to the *Water Act 1914*, the Board determined that on the 26th day of September, 1888, there was filed in the office of the Dominion Lands Agent at New Westminster, a bona fide application for a record of water from Chase Creek and a small stream for use on the Neskainlith No. 2 Indian Reserve. The Order of the Board, numbered 8079, set out that a conditional licence should be issued which would:

(i) provide for the diversion of water from Chase Creek and a small stream in the Reserve,
(ii) take precedence from the 26th day of September, 1888,
(iii) authorize the diversion of a maximum of 670 acre feet of water a year for the irrigation of 268 acres of Neskainlith I.R. No. 2, provided that 3,000 gallons of water a day throughout the year could also be used for domestic

purpose.

Dec 15, 1925 The Comptroller of Water Rights issued Conditional Water Licence 8287, which embodied the terms and conditions set out in Board Order 8287.

Feb 2, 1935 In accordance with a proposed cancellation, Conditional Water Licence 8287 was cancelled due to the failure of the licensee to construct the works authorized under the licence.

The file associated with Conditional Water Licence 8287 was destroyed in 1945, thus it is not known whether the Neskonlith Band was consulted in regards to the cancellation of the licence.

Current Status:

There are a total of 34 licences and 3 applications reported on Chase Creek.
Of these licences:

¥ Ten authorize the diversion and use of water for domestic purpose, for a total amount authorized of 6,100 gallons a day.
¥ Five authorize the diversion and use of water for irrigation by local authority purpose, for a total amount authorized of 1577.25 acre feet per annum.
¥ 18 authorize the diversion and use of water for private irrigation purpose, for a total amount authorized of 400 acre feet per annum.
¥ Two authorize the use of water for storage purposes.
¥ One authorizes the diversion and use of 500 gallons a day for stock watering purpose.
¥ One authorizes the use of water for conservation purpose.

Of the three applications:

¥ Two are for power purposes, for a total amount requested of 12 cubic feet of water per second.
¥ One is for the right to divert and use 74 acre feet of water per annum for irrigation purposes.

Water Rights maps show no indication of a small unnamed stream on Neskainlith Reserve 2.

There are no active licences for the benefit of the Neskonlith Indian Band on Chase Creek.

The Water Rights Information System indicates that Chase Creek is fully recorded except for domestic purposes.

Water Survey of Canada reported streamflow records on Station 08LE005, Chase Creek near Chase, from 1911 to 1968. These streamflow records reported a low mean monthly flow of 0.180 cubic metres per second in October, increasing to a high in May of 4.58 cubic metres per second.

Notes:

1. If the Band decided to obtain a new licence on Chase Creek it may be difficult as the source is fully recorded except for domestic purposes.

South Thompson River

History:

Mar 1, 1972 The Comptroller of Water Rights issued Conditional Water Licence 38411 to the Superintendent General of Indian Affairs in accordance with an application filed by Jimmy Manuel. This licence was given a date of precedence of June 3, 1970 and authorized the diversion of 50 acre feet of water a year from South Thompson River for the irrigation of 25 acres of Lot 7 of Indian Reserve No. 2 (Neskainlith), Kamloops Division of Yale District, Plan M678, on file with Department of Indian Affairs, Ottawa.

The applicant originally requested the right to divert 100 acre feet per annum; however a lesser quantity was authorized as being sufficient for the area to be irrigated.

July 2, 1982 The Deputy Comptroller of Water Rights issued Conditional Water Licence 57620 to the Neskonlith Indian Band in accordance with an application filed by Susan Manuel. This licence was given a date of precedence of August 12, 1980 and authorized the diversion of 60.5 acre feet of water per year from South Thompson River for the irrigation of 30.25 acres of Lot 10 of Neskainlith I.R. #2, Kamloops Division of Yale District, Plan M-678.

The applicant originally requested the right to divert 105 acre feet of water per annum; however a lesser quantity was authorized as being sufficient for the area to be irrigated.

Oct 19, 1982 The Deputy Comptroller of Water Rights refused an application made by Alfred Manuel for non-completion. This application was for 500 acre feet of water from South Thompson River for irrigation purposes on Neskainlith Reserve 2. The application was refused because Mr. Manuel did not file for a permit of Right-of-way over Crown Land in the required time. The Neskonlith Band was notified of the application refusal.

May 8, 1985 The Kamloops Regional Office received an application from the Neskonlith Indian Band for the right to divert 21,000 imperial gallons a day from South Thompson River for waterworks purposes, on lots 18 to 34 inclusive, Neskainlith Indian Reserve No. 2.

Feb 18, 1988 The Regional Water Manager refused an application made by Alfred Manuel. This application was for the right to divert water from South Thompson River to irrigate 100 acres of Neskainlith Reserve 2. The application was refused because Mr. Manuel did not meet the statutory requirements that would have kept the application in good standing.

There is no information on file to indicate that the Neskonlith Band was notified of the refusal of this application.

Current Status:

Conditional Water Licences 38411 and 57620 are the only active licences on the South Thompson River for use on Neskainlith Reserve 2. Conditional Water Licence 38411 is 71st in priority and Conditional Water Licence 57620 is 190th in priority.

There is no recent information on the files to indicate the current exercise of rights under these licences. Annual rental statements are not processed for these licences.

The water application submitted by the Neskonlith Band on May 8, 1995 is still outstanding. A draft of a Regional Engineer's Report has been completed; however, there is nothing on file to indicate why a licence has yet to be issued.

Notes:

1. Conditional Water Licences 38411 and 57620 authorize a lesser amount of water than what was originally applied for.
2. The application filed by the Neskonlith Band on May 8, 1995 is still outstanding.
3. Two separate applications filed by Alfred Manuel, a member of the Neskonlith Band, have been refused.

SWITSEMALPH 3

Palmer Creek

History:

May 30, 1935 The Comptroller of Water Rights issued Conditional Water Licence 12501 to the Superintendent-General of Indian Affairs in accordance with their application. This licence was given a date of precedence of November 24, 1934 and authorized the diversion of 100 acre feet of water a year from Palmer Creek for the irrigation of 100 acres of Switsemalph Indian Reserve, Neskainlith No. 3.

This licence was given a reduced irrigation period, April 1st to June 30th, in order to leave enough water for those licensees with prior rights on Palmer Creek.

Jan 11, 1951 In accordance with a notice of proposed cancellation, the Comptroller of Water Rights cancelled Conditional Water Licence 12501 for non-beneficial use for three successive years.

Jan 29, 1951 The Indian Commissioner requested that the Order cancelling Conditional Water Licence 12501 be rescinded as it had been only two years since the water authorized under the Conditional Water Licence 12501 had been used.

Jan 7, 1952 After reviewing the Indian Commissioner's request to rescind Conditional Water Licence 12501, the Comptroller of Water Rights revoked the Order of Cancellation dated January 11, 1951.

Jan 17, 1952 In accordance with the Engineer's recommendation that Conditional Water Licence 12501 should only be rescinded if the licence is given the latest priority date on Palmer Creek, the Comptroller of Water Rights issued an Order amending the date of precedence for Conditional Water Licence 12501 to January 30, 1951.

Apr 17, 1957 The Comptroller of Water Rights recorded Conditional Water Licence 12501 as abandoned in accordance with a letter from The Indian Commissioner, which requested the cancellation of Conditional Water Licence 12501.

There is nothing on file to indicate that the Neskonlith Band was consulted with regards to the abandonment of Conditional Water Licence 12501.

Current Status:

A total of 17 licences are reported on Palmer Creek. Of these licences:

¥ 5 authorize the use of water for irrigation purposes, for a total amount authorized of 161.50 acre feet per annum.
¥ 14 authorize the diversion of water for domestic purposes, for a total amount authorized of 9740 gallons a day.
¥ 1 authorizes the diversion of 500 gallons a day for stock watering purpose.

*Note: Some licences authorize the use or diversion of water for more than one purpose.

There are no active licences for the benefit of the Neskonlith Band on Palmer Creek.

Water Survey of Canada reported streamflow records on Station 08LE072, Palmer Creek near Salmon Arm, from 1963 to 1977. These streamflow records reported a low mean monthly flow of 0.062 cubic metres per second in January, increasing to a high in May of 1.27 cubic metres per second.

Water Licensing records note that Salmon River and its tributaries, which would include Palmer Creek, as fully recorded without storage.

Notes:

1. Conditional Water Licence 12501 was abandoned by Indian Affairs, without consultation with the Band. It should be noted that it may be difficult to obtain a new licence on Palmer Creek as Salmon River and its tributaries are noted as fully recorded without storage.

Salmon River, Tappen Creek and White Creek

History:

Aug 14, 1877 A Minute of Decision of the Indian Reserve Commission described two reserves to be held in common by the Neskonlith, Adams Lake and Little Shuswap Lake Indians. The Minute of Decision granted:

> *"The right of the Neskonlith, Adams Lake, and Little Shuswap Lake Indians, in common, to all the water which they require or may require for irrigation and other purposes from Salmon River and from the two creeks, as shown on sketch*, flowing through the reserve into the bay on the eastern side of Salmon Arm, is, as far as the Commissioners have authority in the matter declared, and given to them."*

*Note: The two creeks shown on the sketch were referred to as Scatka and Swawashilts Creeks. Scatka Creek appears to have been renamed Tappen Creek and Swawashilts Creek appears to have been renamed White Creek. Both these reserves flow through North Bay Reserve 5, held by the Little Shuswap Lake Indians.

The two reserves, held in common by the three bands, have since been split into four separate reserves, Switsemalph 3, Switsemalph 6, Switsemalph 7 and North Bay 5. These reserves are no longer held in common by the three bands. The Neskonlith Band holds Switsemalph 3, the Adams Lake Band holds Switsemalph 6 and Switsemalph 7 and the Little Shuswap Lake Band holds North Bay 5.

Current Status:

Salmon River

A total of 213 licences are reported for Salmon River. There are no active licences for the benefit of the Neskonlith Band on Salmon River.

Water Licensing records note that Salmon River and its tributaries as fully recorded without storage.

Water Survey of Canada reported streamflow records on Station 08LE021, Salmon River near Salmon Arm, from 1911 to 1990. These streamflow records reported a low mean monthly flow of 1.83 cubic metres per second in December, increasing to a high in May of 17.1 cubic metres per second.

Tappen Creek

A total of 49 licences and 4 applications are reported on Tappen Creek. There are no active licences for the benefit of the Neskonlith Band on Tappen Creek.

White Creek

A total of 45 licences and 13 applications are reported on White Creek below Little White Lake. There are no active licences for the benefit of the Neskonlith Band on White Creek.

Water Licensing records note White Creek as a fully recorded source.

Notes:

1. The allocations to the water of Salmon River, Tappen Creek and White Creek made by the Indian Reserve Commission, with respect to the Neskonlith Band have not been formally recognized by the Province.
2. The Neskonlith Band will probably have no need for water from Tappen Creek or White Creek, as they do not occupy the reserve (North Bay 5) that these creeks flow through.

Shuswap Lake

History:

May 11, 1993 The Regional Water Manager issued Conditional Water Licence 105145 to the Neskonlith Indian Band, c/o Ducks Unlimited Canada in accordance with an application made by the Neskonlith Indian Band and Ducks Unlimited. This licence was given a date of precedence of July 22, 1992 and authorized the storage of 9 acre feet of water from Shuswap Lake for conservation (water fowl enhancement) purposes on that portion of the Switsemalph Indian Reserve #3 lying between Canadian Pacific Rail Right-of-Way and Shuswap Lake.

Current Status:

Conditional Water Licence is the only active licence on Shuswap Lake for the benefit of the Neskonlith Band.

There are several licences on Shuswap Lake and the Engineer's report of March 8, 1993 indicated that the source is not contentious.

Notes:

1. There is no additional information with respect to the rights of the Neskonlith Band on Shuswap Lake.

OTHER INFORMATION

Additional Water Records:

The *Schedule of Indian Reserves in the Dominion*, 1913, is a document published by the federal government, recording each Band's water allocations up to 1913. We believe these records are a compilation of Minute of Decisions, Order-in-Councils, and perhaps other documents; however, as original copies of these documents are unavailable, the dates and information cannot be verified.

Allocations in the *Schedule of Indian Reserves in the Dominion* for the benefit of the Neskonlith Lake Band, which are inconsistent with our findings, are:

Reserve	Water Allocation
Neskainlith #1	*"400 inches of water recorded from Neskainlith creek"* Board Order number 4683 determined that a bona fide application for water from Niskonlith Lake and Creek was filed on the 26th day of September, 1888, and the Band was granted 1536 acre feet of water a year. The quantity authorized under the Board Order is less than the amount (400 inches or 2665.6-acre feet per annum) stated in the Dominion's Schedule.

Alternate Water Sources:

Groundwater Records:

Review of records of the Groundwater Section finds evidence of one well on Neskainlith Reserve 1 and nine wells on Neskainlith Reserve 2. Most of the wells yield small amounts of water, ranging from 5 gallons per minute to 250 gallons per minute. The extent to which these wells are utilized at this time is unknown and as provision of this information is voluntary, it can not be assumed to be complete.

Municipal Water Sources:

The proximity of the Neskainlith Reserves 1 and 2 to Chase and Switsemalph Reserve 3 to Salmon Arm, presents the potential for water supply to the Reserves via a municipal water system.

The Village of Chase has a waterworks licence to obtain water from South Thompson River. Reports on water consumption in 1994 indicate that the Village experienced a peak daily demand of 1,963,000 imperial gallons, well over their authorized maximum daily allowance under their licence; however, their annual demand is within licensed rights.

The District of Salmon Arm has licences to obtain water from East Canoe Creek, Gordon Creek, Hobson Creek, Parker Lake, Rumball Creek, Ruth Spring, Shuswap Lake, Wade Creek and White Cliff Gulch for waterworks purposes. Currently the District obtains their water from East Canoe Creek, Rumball Creek and an area Metford. Reports on water consumption in 1994 indicate that the District experienced a peak daily demand of 4,793,300 imperial gallons, well over their authorized maximum daily allowance under their licence; however, their annual demand is within licensed rights.

Sir,

I have the honor to enclose copy of a letter from Mr. Agent MacKay relative to the water privileges assigned to the Indians of the Niskahinith Reserve by the Joint Indian Reserve Commission in 1877.

May I request that such steps may be taken by Your Government, as may be considered necessary to protect the Indians from the evil complained of.

I also enclose copy of the Reserve Commissioner's decision in regard to the allotment of the water in Niskahinith Creek and Lake.

Sir,

I have the honor to report, that the Indians on the Miskquilth Reserve, complain that whereas, two farmers Grahame and Ross, have already the rights to take water for irrigation purposes, from Miskquilth Creek, a Chinaman has been employed by a third party, whose name they do not know, to take another ditch from this stream to irrigate one of the higher benches.

The opening of this last ditch will reduce the water in the creek below the quantity required for the use of the Indians.

The Indians say that they were promised by the Reserve Commissioners that a sufficient supply of water, would be protected in the above creek, by the Government for their use.

In order to fulfil this promise, it appears absolutely necessary, that the Provincial Authorities, be notified, as soon as possible, that any further privileges, granted, in respect to

taking water from the stream, the Creek, will interfere with the rights of the Indians.

I have promised to lay out two ditches for these Indians on my next visit to their camps.

I have the honor to be
Sir,
Your obedient Servant.

(For a Conditional Water Licence for Irrigation Purposes)

BY THE BOARD OF INVESTIGATION

UNDER THE "WATER ACT 1914"

IN THE MATTER OF THE CLAIMS OF THE DEPARTMENT OF INDIAN AFFAIRS TO RIGHTS TO THE WATERS OF THE UNDERMENTIONED STREAMS TRIBUTARY TO THE SOUTH THOMPSON RIVER IN THE NEIGHBOURHOOD OF SHUSWAP B.C. IN THE KAMLOOPS WATER DISTRICT.

....

1. NOW on the 6th day of August 1920, the above-entitled matter coming on regularly for final hearing before the Board of Investigation; due notice having been given of the time and place of hearing; all and every the steps required under the Act to be taken by the Board before a determination of the said rights and claims should be made having been taken; all evidence, testimony and proofs filed with the Board or presented in the above-entitled matter having been duly considered; a quorum of the Board being present at this hearing; and the Board being now fully advised in the premises, determines with respect to the said claims (which is on file and designated as Indian File No. 6-2-1) that the Indian Reserve Commissioners in allotting to the Neskainlith-Halaut tribe or band of Indians the lands comprised in Neskainlith Indian Reserve No. 1 attempted without authority to set apart water from a certain stream and lake for use on the said Reserve, and that on the 26th day of September 1888 there was filed in the office of the Dominion Lands Agent at New Westminster a bona fide application for records of water from Nisconlith Lake and Creek for use on the said Reserve, and that water from the said Lake and Creek has been used for beneficial purposes on the said Reserve, and that on the second day of November, 1898, a record of water from said Nisconlith Lake was duly granted for use on the said Reserve pursuant to the provisions of the Water Clauses Consolidation Act, 1897.
